Le Va Pasifika Suicide Prevention Community Fund Guidelines

The Le Va Pasifika Suicide Prevention Fund is aimed at preparing more Pasifika families and communities to respond effectively to prevent suicide within communities if and when a suicide occurs.

We invite online applications for funding for the amounts between \$50,000 and \$200,000 excluding GST.

Applications for the Fund are open from 31 January 2023 and will **close 24 February 2023, 4.30pm**.

Why we fund

The key objectives of the Community Fund are to support Pasifika families and communities to develop solutions to prevent suicide through:

- Providing support to Pasifika families and communities that are experiencing suicide risk and/or are bereaved by suicide
- Prioritising population groups within our communities that are known to be at higher risk of suicidal distress
- Building inclusive communities and strengthening community resilience
- Encouraging a focus on mental health
- Raising awareness about available support services.

Priority groups within Pasifika communities

We know that different people with different levels of advantage require different approaches and resources to achieve equitable health outcomes. Successful initiatives will foster one or more of the following priority groups within Pasifika communities (this does not imply that the applications should be limited to these groups):

- Men
- Youth
- Rainbow
- Rural communities
- People with lived experience of suicidal behaviour.

What we fund

All funded initiatives must show a clear alignment to one, or more, of these outcomes:

- Families, whānau, and communities are strongly connected, and people are actively participating in the wider community to prevent or cope with distress
- Families, whānau and communities are actively building resilience and reducing the risks of suicide
- Community leaders empower people, foster resilience and bring people and resources together for better mental wellbeing
- Families, whānau and communities have stronger relationships and confidence to be able to talk about their difficulties
- People are informed about and assisted in accessing support services
- People bereaved by suicide receive the support they need within their families and whanau
- Pasifika young people are connected to their culture and are supported to build a strong cultural identity to enhance mental wellbeing.

Evaluation Criteria

Our assessment panel will use Le Va's *Critical Elements for Implementing Pasifika Community-Based Suicide Prevention Initiatives* model to evaluate all funding applications.
